supplies.com**
\$5,500.00
Item Code 00025

Pollen substitutes provide the protein, beneficial vitamins, lipids and minerals bees need to thrive and raise brood when natural pollen is not available in sufficient quantities.

SUGAR SYRUP

PROFESSIONALLY MIXED 2 : 1 RATIO

Bee's require sugar syrup when natural nectar is scarce. It provides a quick energy source that helps keep the colony healthy and active, especially during honey production or after winter when food supplies are low.
